TOP SECRET

DAILY STAFF MEETING

Monday, 2 July 1951

Mr. [] stated that Mr. Standish of LIFE Magazine had requested authority to take a photograph [] in order to depict an "Intelligence Agency" on duty twenty-four hours a day. Mr. [] noted that after checking with OO and Security, Standish was turned down.

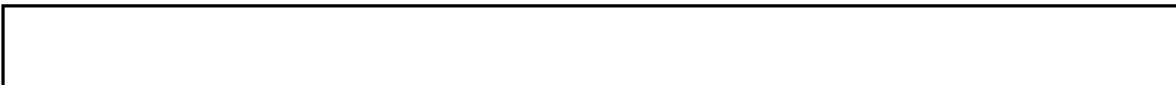

Colonel Hansen briefly discussed [] and stated that since CIA was in no wise involved, it was being turned over to the Department of the Army who had agreed to accept it.

Hansen also noted an article was to be published in LIFE in the near future by Leland Stowe regarding economic conditions in the Russian orbit. The National Committee for Free Europe may possibly want to use this article and OPC has been approached to confirm the facts and figures contained therein. OPC will be advised not to comment on this article.

Mr. [] noted that OPC had requested an extension on the submission of their requirements, vis-a-vis the Magnitude Paper.

Mr. [] stated that the William Morris Agency of New York had requested authority to use the name CIA in a series of television programs they planned to broadcast in the near future. Gary Cooper is to be the central figure in these programs. Colonel Hansen, who has dealt with the William Morris Agency, will call and request that no mention be made of this Agency.

OO has requested the DCI to send autographed pictures to the Chiefs of the various [] offices. Mr. [] will check this with the DCI.

It was noted that Winchell in his Sunday night broadcast predicted that there was soon to be a shake-up in intelligence.
